ABOUT ME

Passionate Full Stack Developer with 1-3 years of hands-on experience building production-grade Discord bots, web applications, and AI-powered solutions. Self-taught programmer with a strong drive for continuous learning. Specialized in creating complete ecosystems — from bot backends to modern web dashboards — with a focus on reliability, performance, and clean architecture. Currently running a live AI services shop bot deployed on Railway with a full web dashboard and public storefront.

EXPERIENCE

Full Stack Bot Developer

2024 – Present · Freelance

Designed and built a complete AI shop Discord bot (36+ commands) with Node.js, Express, and discord.js. Features include ticket system, anti-spam/raid protection, giveaway system, welcome messages, auto-roles, moderation tools, and a full HTTP API. Deployed on Railway with 24/7 uptime.

Web Dashboard Developer

2024 – Present · Freelance

Built a modern web dashboard with real-time stats, service management, ticket tracking, order management, and admin controls. Integrated multi-currency pricing system (USD/EGP/Credits) with a public storefront for customer orders.

AI Integration Specialist

2024 – Present · Freelance

Integrated OpenAI APIs, built AI-powered content generation tools, automated workflows, and custom Discord bot solutions for communities. Experienced with prompt engineering, API rate limiting, and production deployment.

KEY PROJECTS

AI Shop Bot — Complete E-Commerce Discord System

Full-featured Discord bot with 36+ services across 4 categories, multi-currency pricing (USD/EGP/Credits), ticket system, order management, web dashboard with real-time analytics, and public storefront with contact validation.

Multi-Currency Service Platform

Built a dynamic pricing engine supporting 3 currencies with real-time conversion, compact display format, and admin editing via dashboard modals. Includes service/category CRUD with automatic ID synchronization.

WHAT I OFFER ON FIVERR

- Discord Bot Development
- AI Bot Integration
- Server Setup & Configuration
- Web Dashboard Creation
- API Development & Integration
- Full Stack Web Applications

Built with passion · Available for freelance projects · yassinxz1@gmail.com
